FOR IMMEDIATE RELEASE

The Newest, Largest, Fastest, Most Efficient, and Cost Competitive Softgel Production Facility In North America Will Be Completed and Commissioned In September.

August 22, 2006- Santa Anna, Ca- Robinson Pharma Inc., (R.P.I.) announced that it is nearing completion of its Phase II manufacturing and production facility expansion. Gary Swanson, Executive Vice President of Operations, expects the new facility to be commissioned and begin expanded operations within the next few weeks. R.P.I. has added nine of the industries newest state of the art jumbo capacity soft gel machines, each fitted with continuous drying capacity, to its already significant production capacity. R.P.I., with nineteen softgel lines, now offers the largest potential productive volume of any contract softgel manufacturer in North America. With the newest, most advanced and efficient manufacturing equipment, R.P.I. will provide the fastest product throughput of any manufacturer in North America. R.P.I. has been operating at or near threshold and will immediately utilize this new equipment to meet both new and loyal customers growing demand for product.

Robinson Pharma Inc. has been executing a modernization program for the last year and has focused on expanding production capacity and improving product quality and integrity. In early 2006, R.P.I. qualified with the National Sanitary Foundation (N.S.F.) as a Good Manufacturing Practices (GMP) Contract Manufacturer. This prestigious third party certification signifies that R.P.I. ranks amongst those companies with the most rigorous and accountable production standards. Tuong Nguyen, President and C.E.O. of R.P.I. initiated this expansion and upgrade program as part of his effort to make R.P.I. a world class manufacturer. Mr. Nguyen has also assembled a management team that includes individuals with over a century of collective dietary supplement and pharmaceutical industry experience. Mr. Nguyen's vision for the most experienced staff in the industry, working in the largest and most advanced production facility, will soon be realized. "Having expanded physical plant capabilities and enhanced staff expertise will provide unparalleled level of service and value to our customers. We will now be able to provide our fast, accurate, and cost competitive service to even more customers," stated Nguyen.

Robinson Pharma Inc. is a Southern California based full service custom contract manufacturer offering support from concept through finished product. Production capabilities include tablets, capsules, softgels, coating, and a range of packaging options including bulk product, bottles, blister packaging and boxes. Robinson Pharma Inc. provides rapid turnaround on all projects and offers highly competitive pricing. Robinson Pharma Inc. maintains a 400,000 square foot production and operations

facility that is N.S.F.® G.M.P. certified for contract manufacture of dietary supplements. For more information please contact Glenn Richardson, Senior Vice President of Sales, (714) 241-0235 or visit www.RobinsonPharma.com
